COVID-19 & WEAKENED IMMUNE SYSTEM

HAVING A WEAKENED IMMUNE SYSTEM

Anyone can get COVID-19. However, people who have weakened immune systems (immunocompromised) can get really sick if they get COVID-19.

Here is a general list of the groups of people who can get really sick from COVID-19:

- Older adults
- People with certain medical conditions
- Pregnant people

Speak with your doctor about your concerns and how you can lower your chance of getting COVID-19.
