COVID-19 TREATMENTS FOR ADULTS

In general, most people who get COVID-19 have mild symptoms and can get better at home. Contact your doctor right away if you test positive and can get really sick from the virus.

TYPES OF TREATMENTS

There are two different types of treatments available. Depending on what your doctor wants you to take, the treatments can:

- Shorten how long you're sick
- Help prevent serious health problems
- Boost your body's ability to fight viruses
